Paragraph 1: The letter I received from Freya. I'll write back...

Hi Freya

Thanks for your email, I've been busy too, the exams killed me;

About your question, If you like all things about reading, writing, research and analysing ideas, history is a good idea, but if you like activities with experiments, research, practices and solving some of humanity's problems, science is the better one.

My advice, choose the one you like most, that way you will do better and stay motivated, don't worry in the future you can study the other one.

Have fun with your friends, write back soon to tell me your decision.

see you soon, All the bests
